

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of:
MAX FRIEDHEIM

NOTICE OF REFILING OF CHANGE
OF ADDRESS OF APPLICANT'S
ATTORNEY

Application No.: 10/066,281

EXAMINER: S.Y. PAIK

Filing Date: 02/01/2002

Art Unit: 3742

FOR: SUPERHEATED VAPOR
GENERATOR SYSTEM AND METHOD

Commissioner for Patents
P.O. Box 1450
Arlington, VA 22313-1450

Sir:

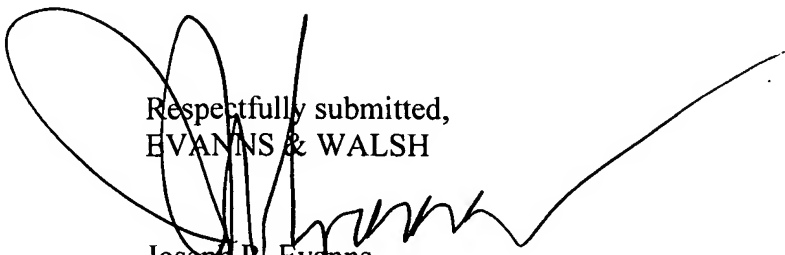

Kindly enter the within change of address of applicant's counsel in the file of this case. Applicant's counsel previously filed a change of address in the file of this case after moving from his offices at 119 N. San Vicente Blvd., Beverly Hills, CA 90211 to his offices at 8200 Wilshire Blvd., #227, Beverly Hills, CA 90211 in January 2009. During the entire prosecution following that time communications from the PTO were addressed to the new offices of counsel. In that time period, a successful appeal was filed and prosecuted, with the new address of record being employed by the Board of Appeals and by the examiner. Nonetheless, notice of the Board's action reversing the examiner on 25 claims out of 27, was mailed by the examiner on May 27, 2011, to the old address as opposed to the new address, resulting in a substantial delay in receipt of the notice of the Board's action, such that counsel received said notice on June 14, 2011, a delay of 18 days.

During the next few months, communications from the PTO will be sent to counsel for applicant including but not limited to Notice of Base Issue Fee Due and the like. In view of the fact that the life of the patent is basically 20 years from the date of filing the patent application (corrected

for pendency of the successful appeal) time is of the essence in terms of receipt on behalf of applicant by his counsel of such notices so that they can be immediately responded to in order to maximize the life of the patent.

Accordingly, it is respectfully requested that the within change of address be entered.

Dated: June 16, 2011

Respectfully submitted,
EVANNS & WALSH

Joseph R. Evanns,
